Lost Treasure Is Recovered

Silver and Lead Bullion Worth
\$100,000 Found at Bot-
tom of Ocean.

New York, Oct. 17.—Tales of treasure
lost at sea do not generally have
the happy ending of that just concluded
through the work of divers and a
dredge in Staten Island Sound off Se-
waren island. Silver and lead bullion
worth \$100,000 has been recovered after
lying at the bottom of the sound since
September 27.

The bullion came from the Mexican
mines by way of Galveston on a Mal-
lori line steamer and was on its way
from the East river water front to the
plant of the American Smelting & Re-
fining Company, near Porth Amboy, N. J.
There were 7678 pigs of the metal on
the deck of the barge Harold. In
company with 13 light canal boats the
treasure ship was taken in tow by a
tug. It was the last boat in the line.
Under a moon nearly full, the night
was brighter than many days. There
was no wind. Peter Moore, captain of
the barge, spent the evening chatting
with the canalers alongside as the tow
drags slowly across the upper bay
and into the Kill Von Kull. The Harold
was not as comfortable as it might be,
so when bed time came the captain
accepted an invitation to sleep aboard the
canal boat.

After all hands turned in the barge
rolled to starboard, under the weight of
100 tons of metal and dumped the whole
mass, except about 200 pigs, into the
water. She righted immediately and
went along as peacefully as before.
Some of the metal landed on the canal
boat deck and Moore was awakened.
He hailed the pilot of the tug but had
no megaphone, and the pilot kept the
squadron on the move. Moore failed to
notice that a fortune had disappeared
from his craft while he slept. The
barge appeared to be moving along all
right and he went back to his bunk.

When the boats drew up in the morn-
ing at the pier in New Jersey there was
a surprise awaiting the smelter officials
and everybody was sworn to secrecy.
Insurance companies were notified and
preparations quietly made to search
the bottom of the sound for the lost
pigs. The waters of that portion of the
bay are known to be infested with pi-
rates who go about in small boats
preying on canal boats and coal barges.
They are considered dangerous men
and great fears were entertained that
they might learn of the affair and lo-
cate the treasure. Launches were hur-
ried to the scene and for more than a
week, while the men aboard appeared
to be fishing, sounding lines were being
passed over the sandy bottom. Finally
October 5, the search was rewarded
when the line gave a metallic answer
to the tipping of the lead.

Divers went down and found nearly
an acre of the bottom covered with
bullion. A dredge was immediately put
into commission and the work of recov-
ery went rapidly on until nearly 83 per
cent of the treasure had been brought
up. The divers then went down again
and brought up what the dredge failed
to reach and the insurance company offi-
cials breathed a sigh of relief as their
loss now will be a small one, compara-
tively.

The bullion was a mixture of lead and
silver, the latter making up fully three
quarters of its value, which will be sepa-
rated and refined at the Perth Amboy
works. Captain Baxter of the salvage
crew says the next few days will de-
termine how long divers shall continue
at work, but he is satisfied not enough
remains on the bottom to make it worth
any amateur wrecker's while to turn in
and help without an invitation.

HAVE GONE TO GERMANY.

William E. Tallant, president of the
Tallant-Grant Packing Company, and
George W. Sanborn, president of the
Sanborn-Cutting Company, left yester-
day for Germany, where they will look
after their salmon packing interests.
Both gentlemen are to cross the ocean
together, having arranged for passage
on the Kaiser Wilhelm. The pickled
fish business in Germany has reached
great proportions and much of the out-
put of local concerns is sold there.
Messrs. Tallant and Sanborn will be
away for about three months and their
trip promises to be an instructive and
profitable one.

NEW IMPROVEMENT OF ASTORIA.

According to the Portland corres-
pondent of the Pacific Lumber Trade
Journal, T. J. Killen, manager of the
Oregon Barrel Company, of Portland,
was in Astoria recently making prepa-
rations for opening the branch factory
of the company here. The building for
the purpose will be ready for occupancy
in a few days, according to the corre-
spondent's story.

BROKE INTO HIS HOUSE.

S. Le Junn of Cavendish, Vt., was
robbed of his customary health by in-
vasive not chronic constipation. When
Dr. King's New Life Pills broke into his
house, his trouble was arrested and
now he's entirely cured. They're guar-
anteed to cure, 25c at Chas. Rogers'
drug store.

receive courteous treatment. Open day

LOG MARKET WEAKER.

Columbia river loggers are now re-
ceiving \$7 for first grade yellow fir,
while not long since the price was \$5.
No. 1 spruce logs are bringing \$5, with
many offering at 50 cents less than that

figure. It is expected that the log mar-
ket will not continue in the present
weak condition, as these smaller camps
on the river will shortly close down for
the winter months, thus relieving any
surplus that may have accumulated
within the past few months. Millmen
contended that there is no congestion of
logs and that they are not in the least
disturbed over rumors of overproduc-
tion. In their opinion, the weakness is
attributable in a measure to the de-
cline in the cargo demand and the log
market was immediately affected.

Battle With a Monster Whale

Exciting Experience of the Crew
of a Steamer on the New
Foundland Coast.

New York, Oct. 17.—The whaling
steamer Humber has arrived here, says
a St. John, N. F., dispatch, for repairs
received in a royal battle off Cape
Speer, N. F., with a monster whale,
asserted by the crew to have been 110
feet long. The fight lasted 29 hours.
When the monster was harpooned it
started towing the vessel at the rate of
seven miles an hour, though the en-
gines were reversed full speed which,
under ordinary conditions would mean
a retrograde movement of about eight
miles. This continued for hours, the
ship, as the whale flew off in zigzag
courses, being almost towed under the
water, the sea washing the decks.
Several times the Captain was on the
point of cutting the cable, but the
windlass held and the whale finally
gave up the struggle.
